DRAGA DJECO,

Poklanjamo vam ovu posebnu eko bojanku sa savjetima o odvajanju otpada, kako bi vas kroz zabavne sadržaje, križaljke, labirinte i drugo, podučili kako se čuva ovaj naš divan otok i kako se odvaja otpad!

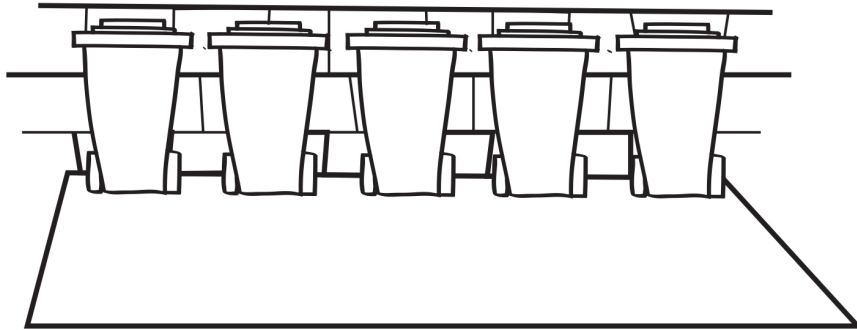

Trebamo vašu pomoć, vi ste od sad naši pomoćnici i imate ozbiljan zadatak- sve što ste naučili o otpadu podijeliti dalje!

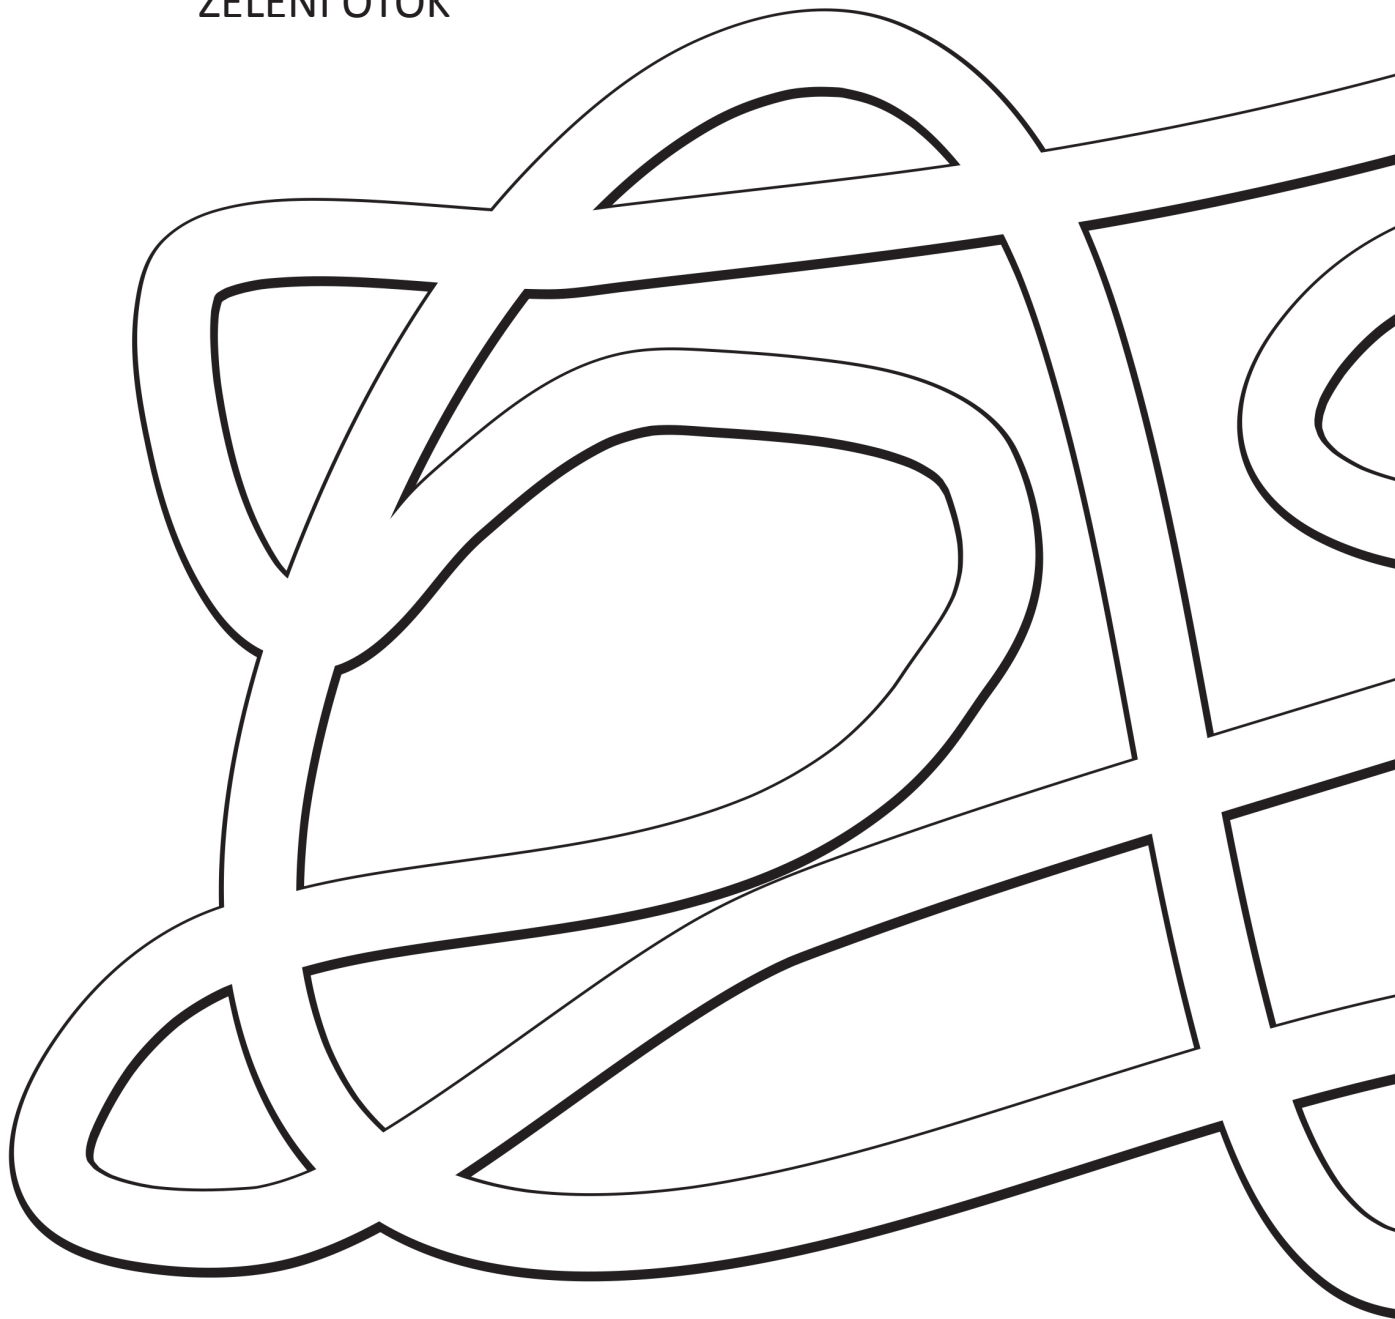

Neka nijedna stranica
ne ostane neobojana!
Ispuni je šarenilom!

LABIRINT

Pomozi Eku Zelenku da nađe put do zelenog otoka!

ZELENI OTOK

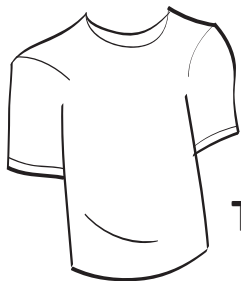

Zeleni otok mjesto je na kojem se skuplja različiti otpad, da bi se kasnije mogao reciklirati i ponovo iskoristiti!

TRAŽILICA

Pronađi i zaokruži pojmove sa slike, a slova koja ostanu nezaokružena, dat će ti novi pojam! Prepiši ga ispod tražilice!

TEKSTIL

PLASTIKA

OBOJI ME

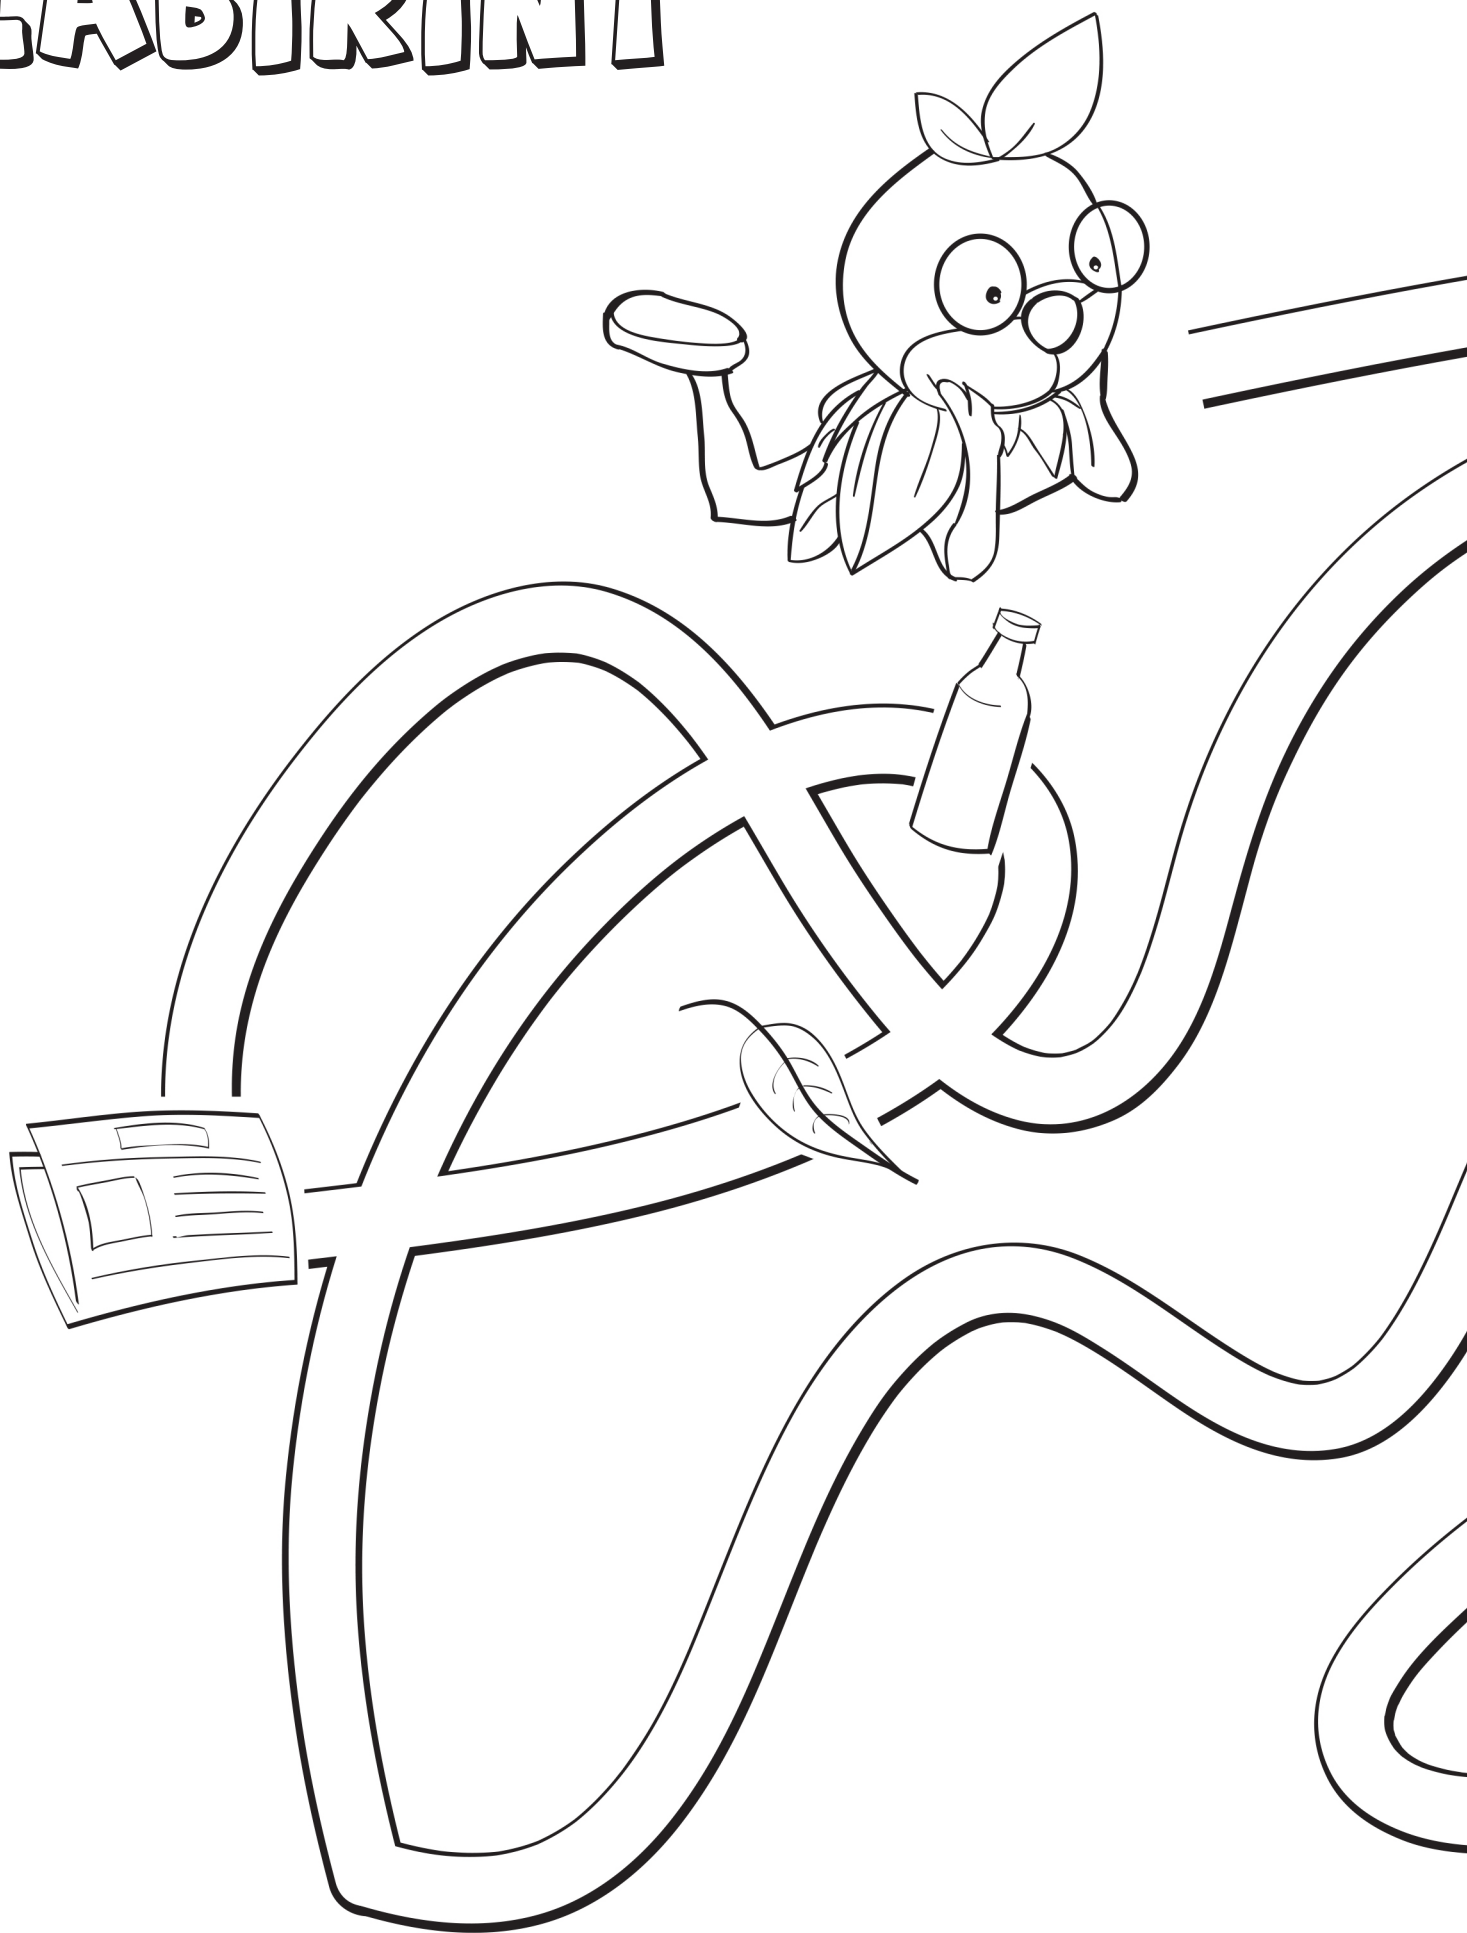

OTPAD NIJE SMEĆE

OTPAD ne bi trebao završiti u smeću! To su one stvari koje nam više ne trebaju, ali se mogu ponovno iskoristiti, popraviti ili reciklirati. Poveži otpad s kantom u koju ga treba smjestiti da bi ga se moglo reciklirati i ponovo iskoristiti!

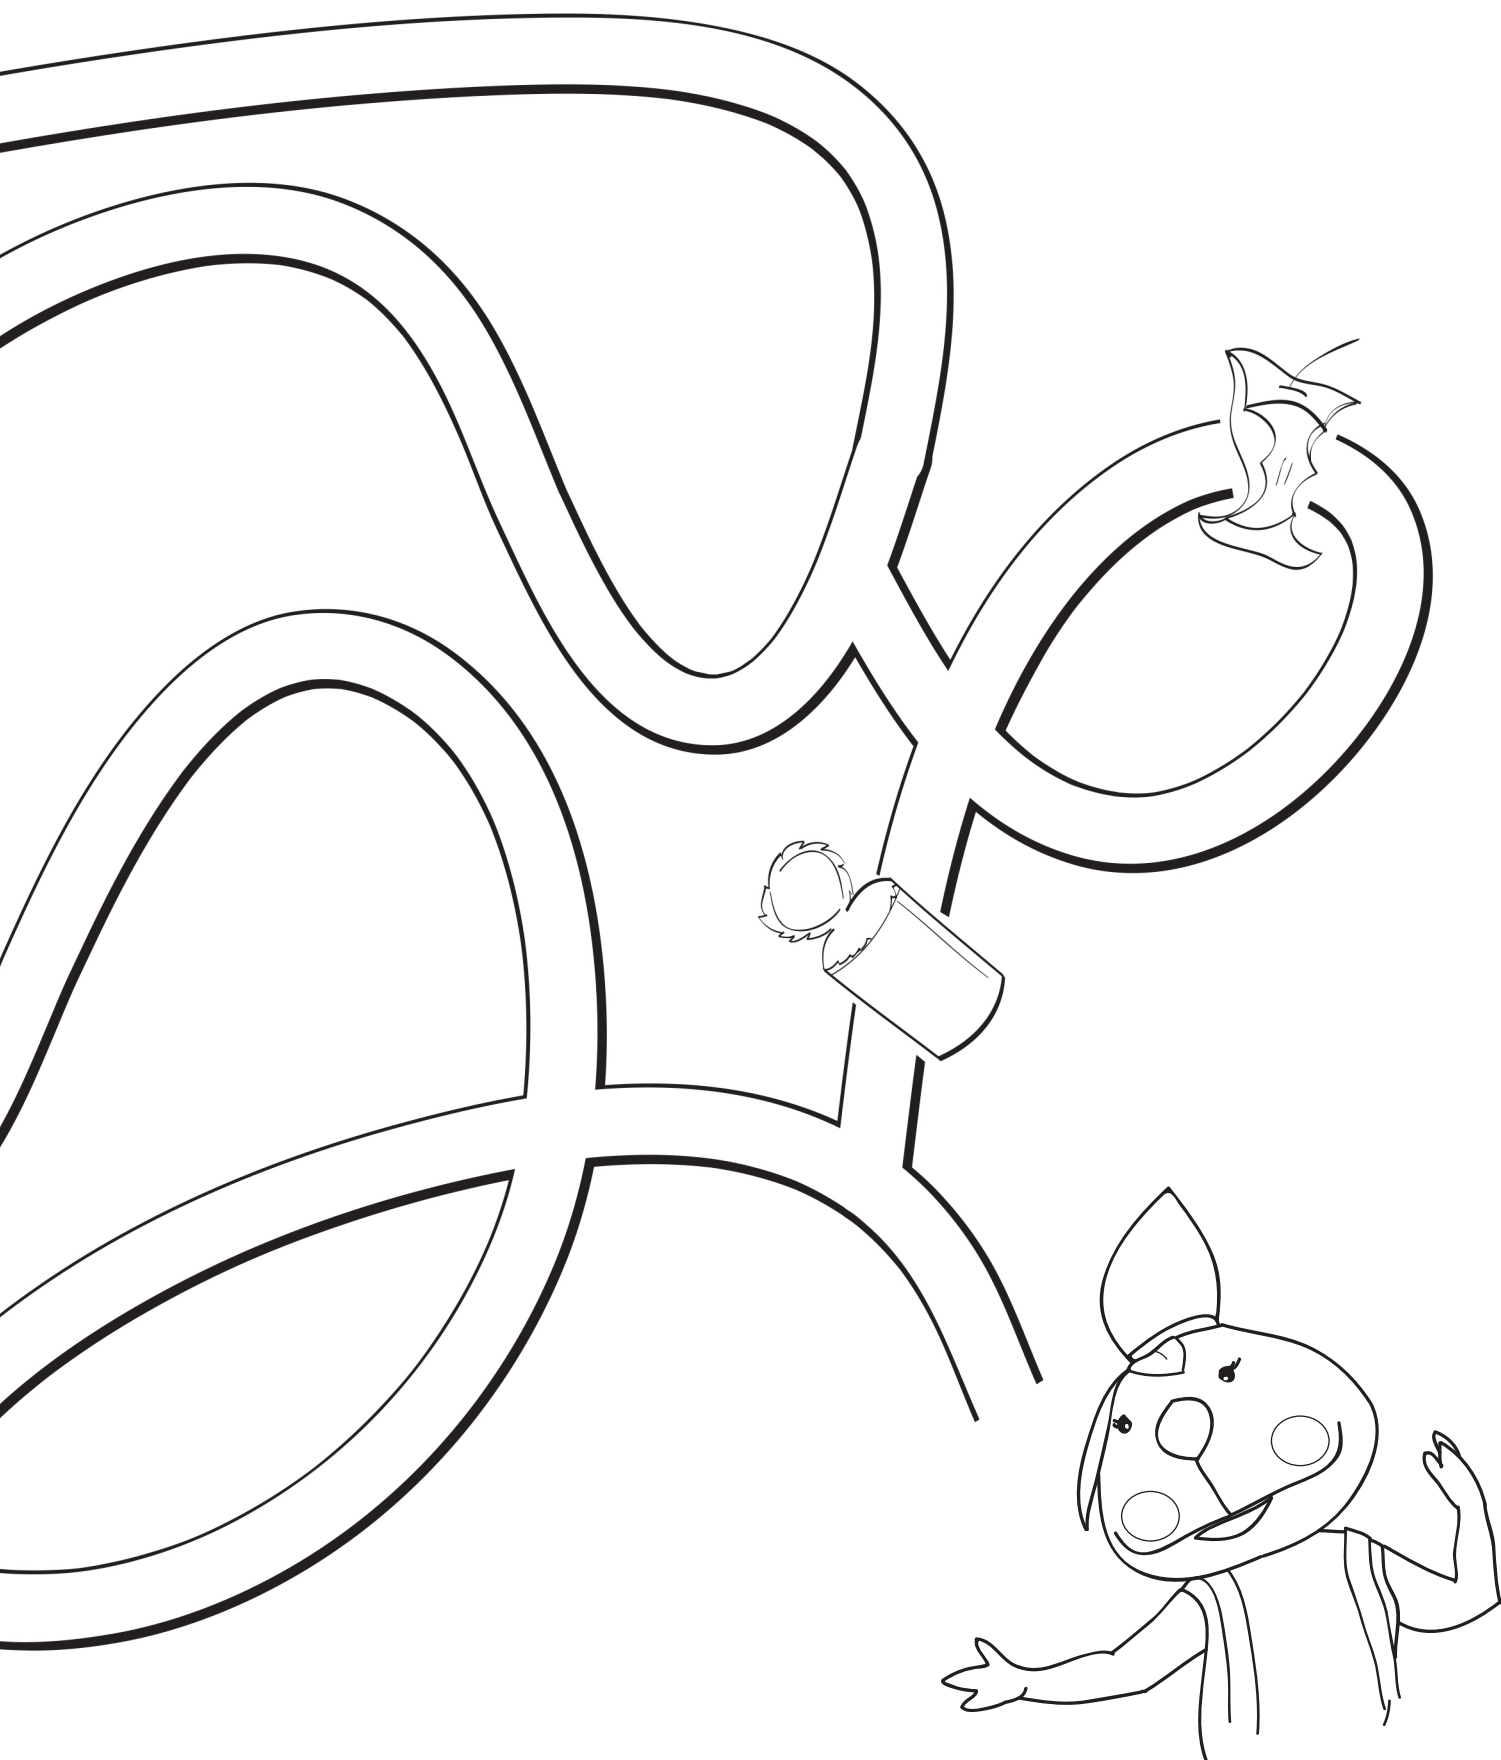

LABIRINT

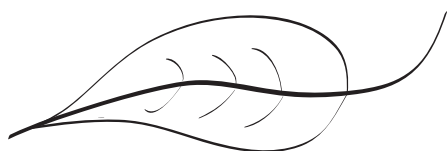

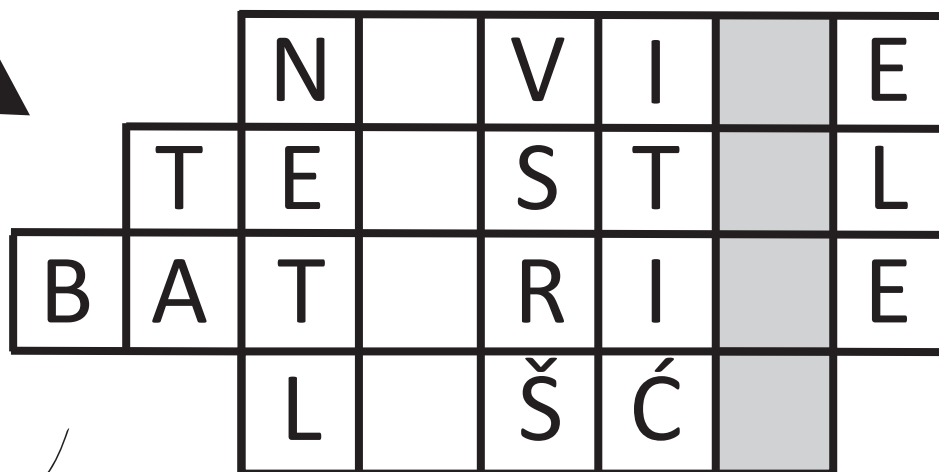

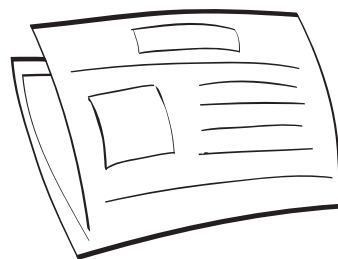

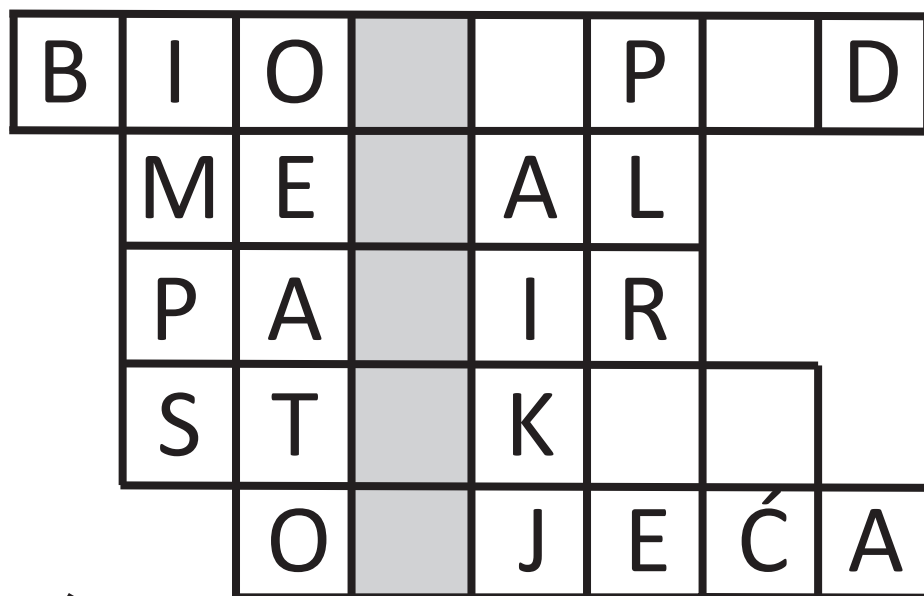

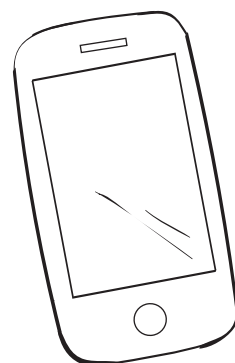

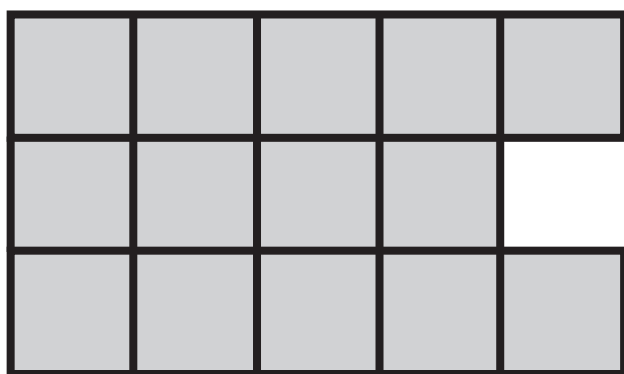

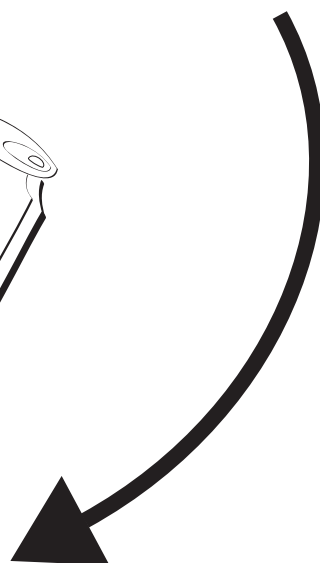

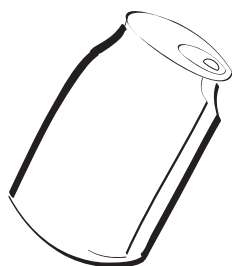

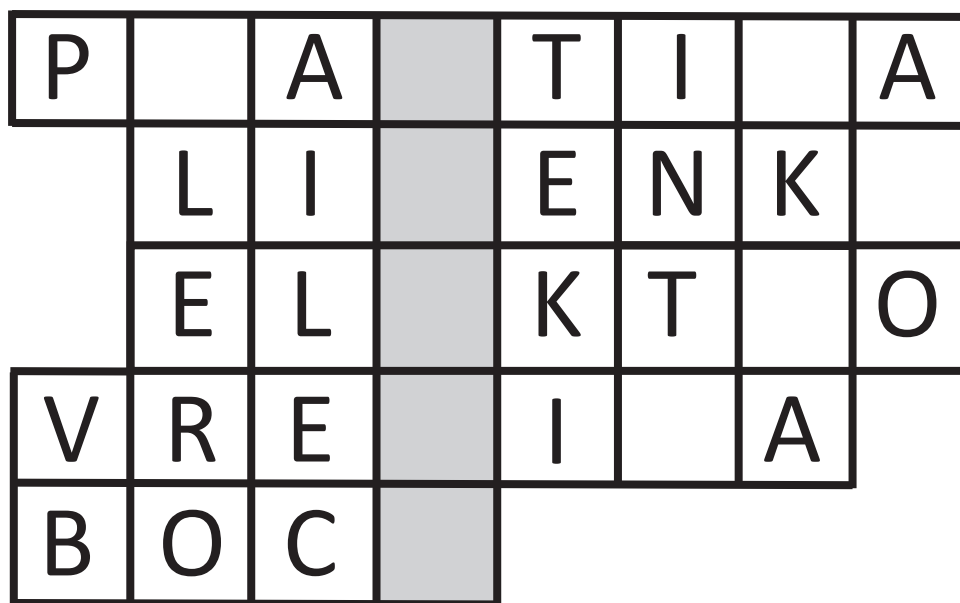

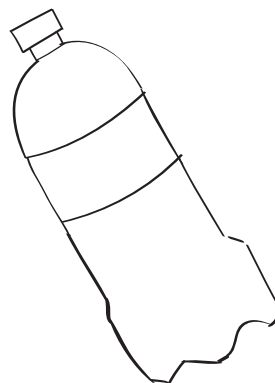

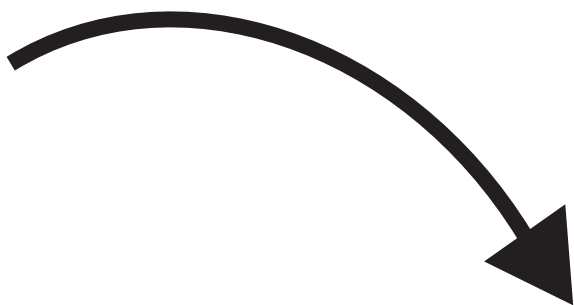

Pomozi Eku Zelenku da nađe put do svoje Zelenčice! Ali pripazi, na putu mu
stoji mnogo smeća, moraš naći put kojim Zelenko može slobodno proći!

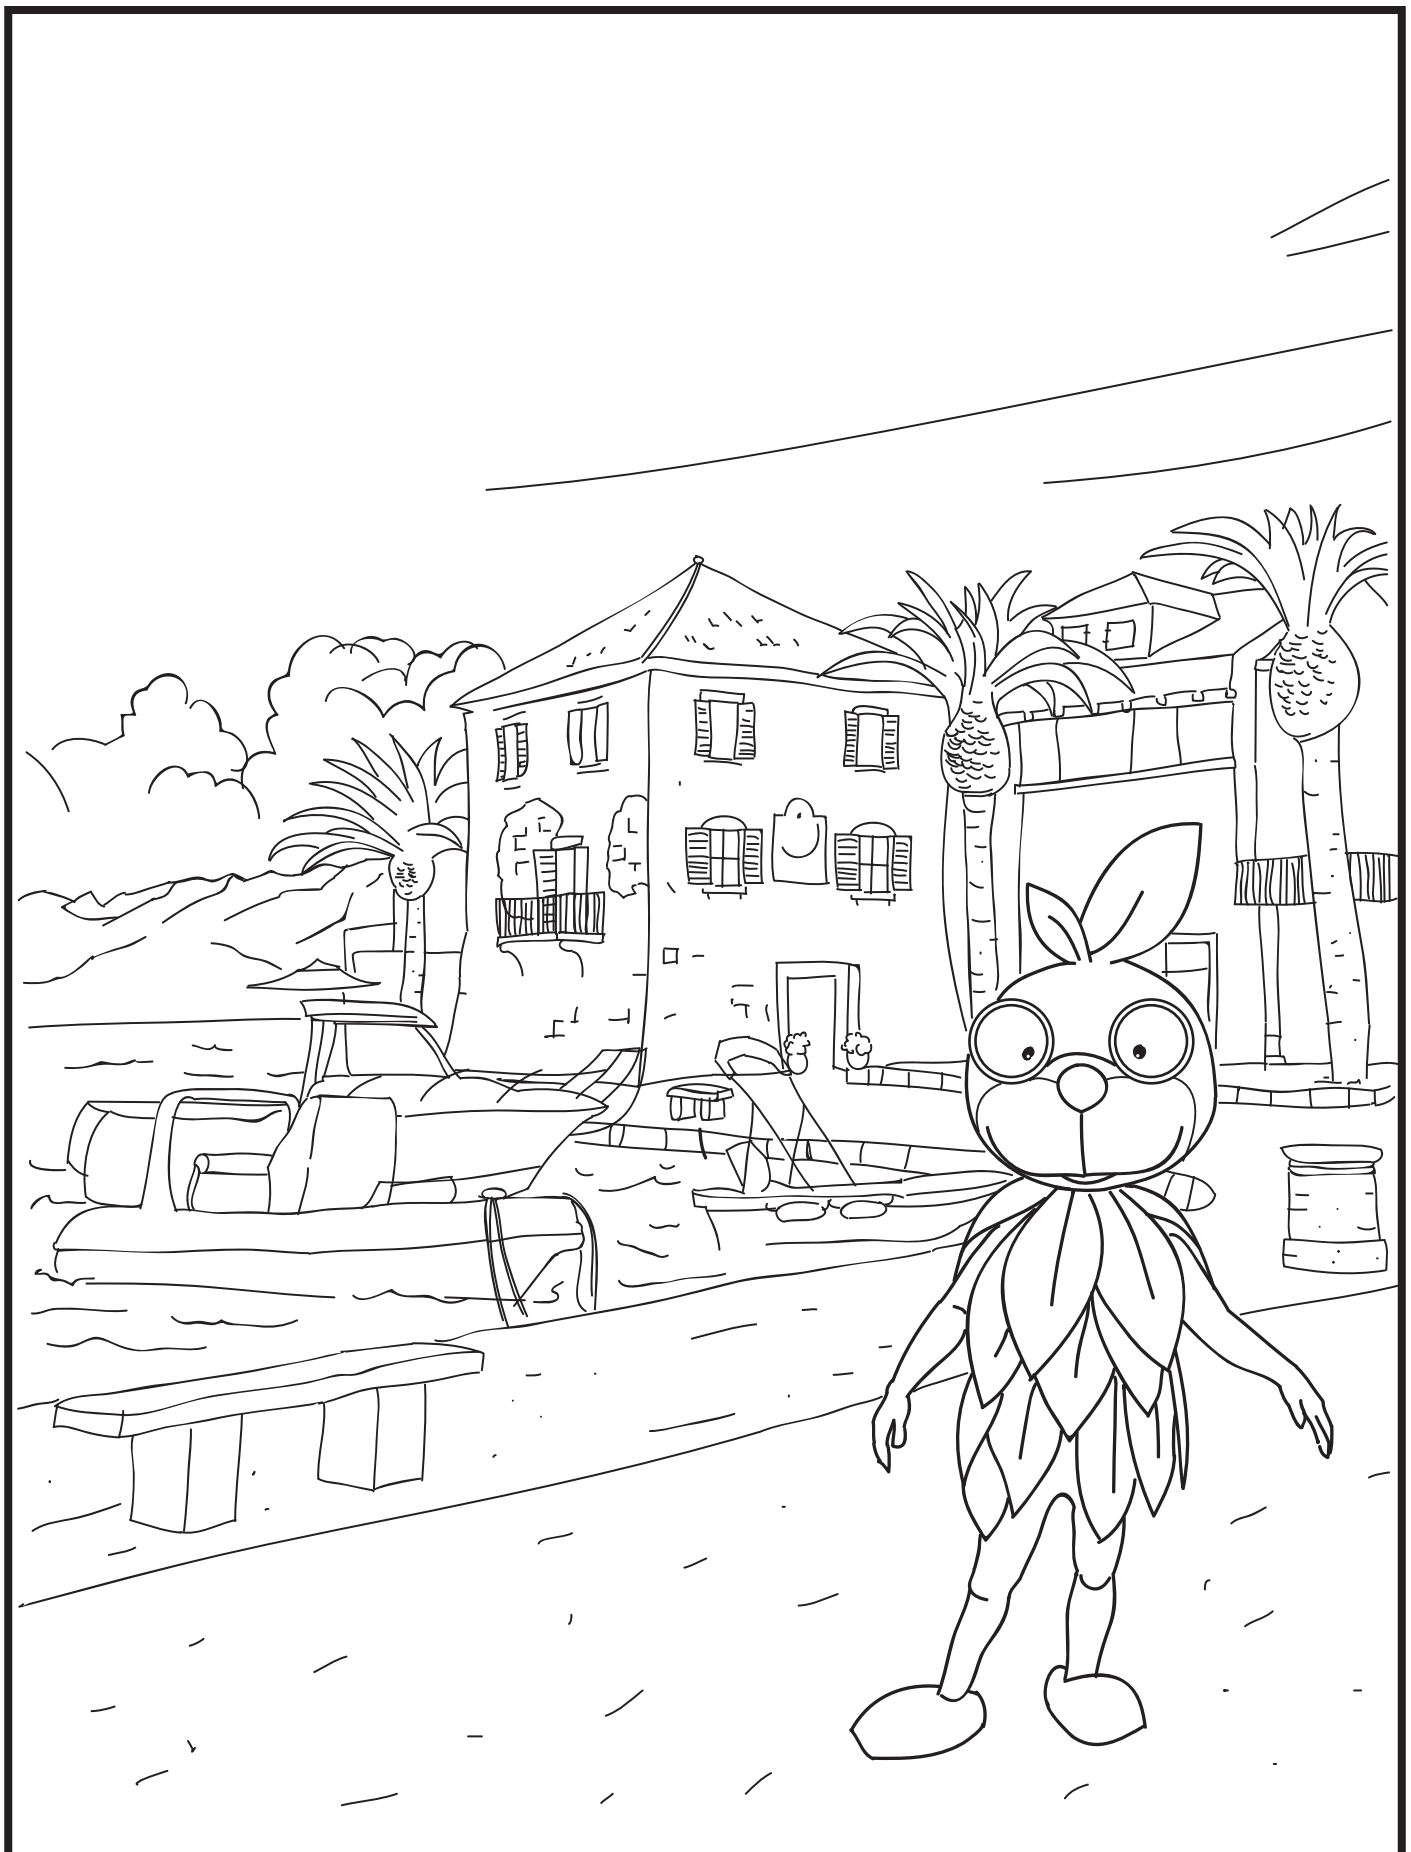

EKO KRIŽALJKA

Upiši slova koja nedostaju, riješi križaljku i otkrij što se krije iza obojanih polja! Prepiši rješenje u novu tablicu i nauči vrijednu lekciju!

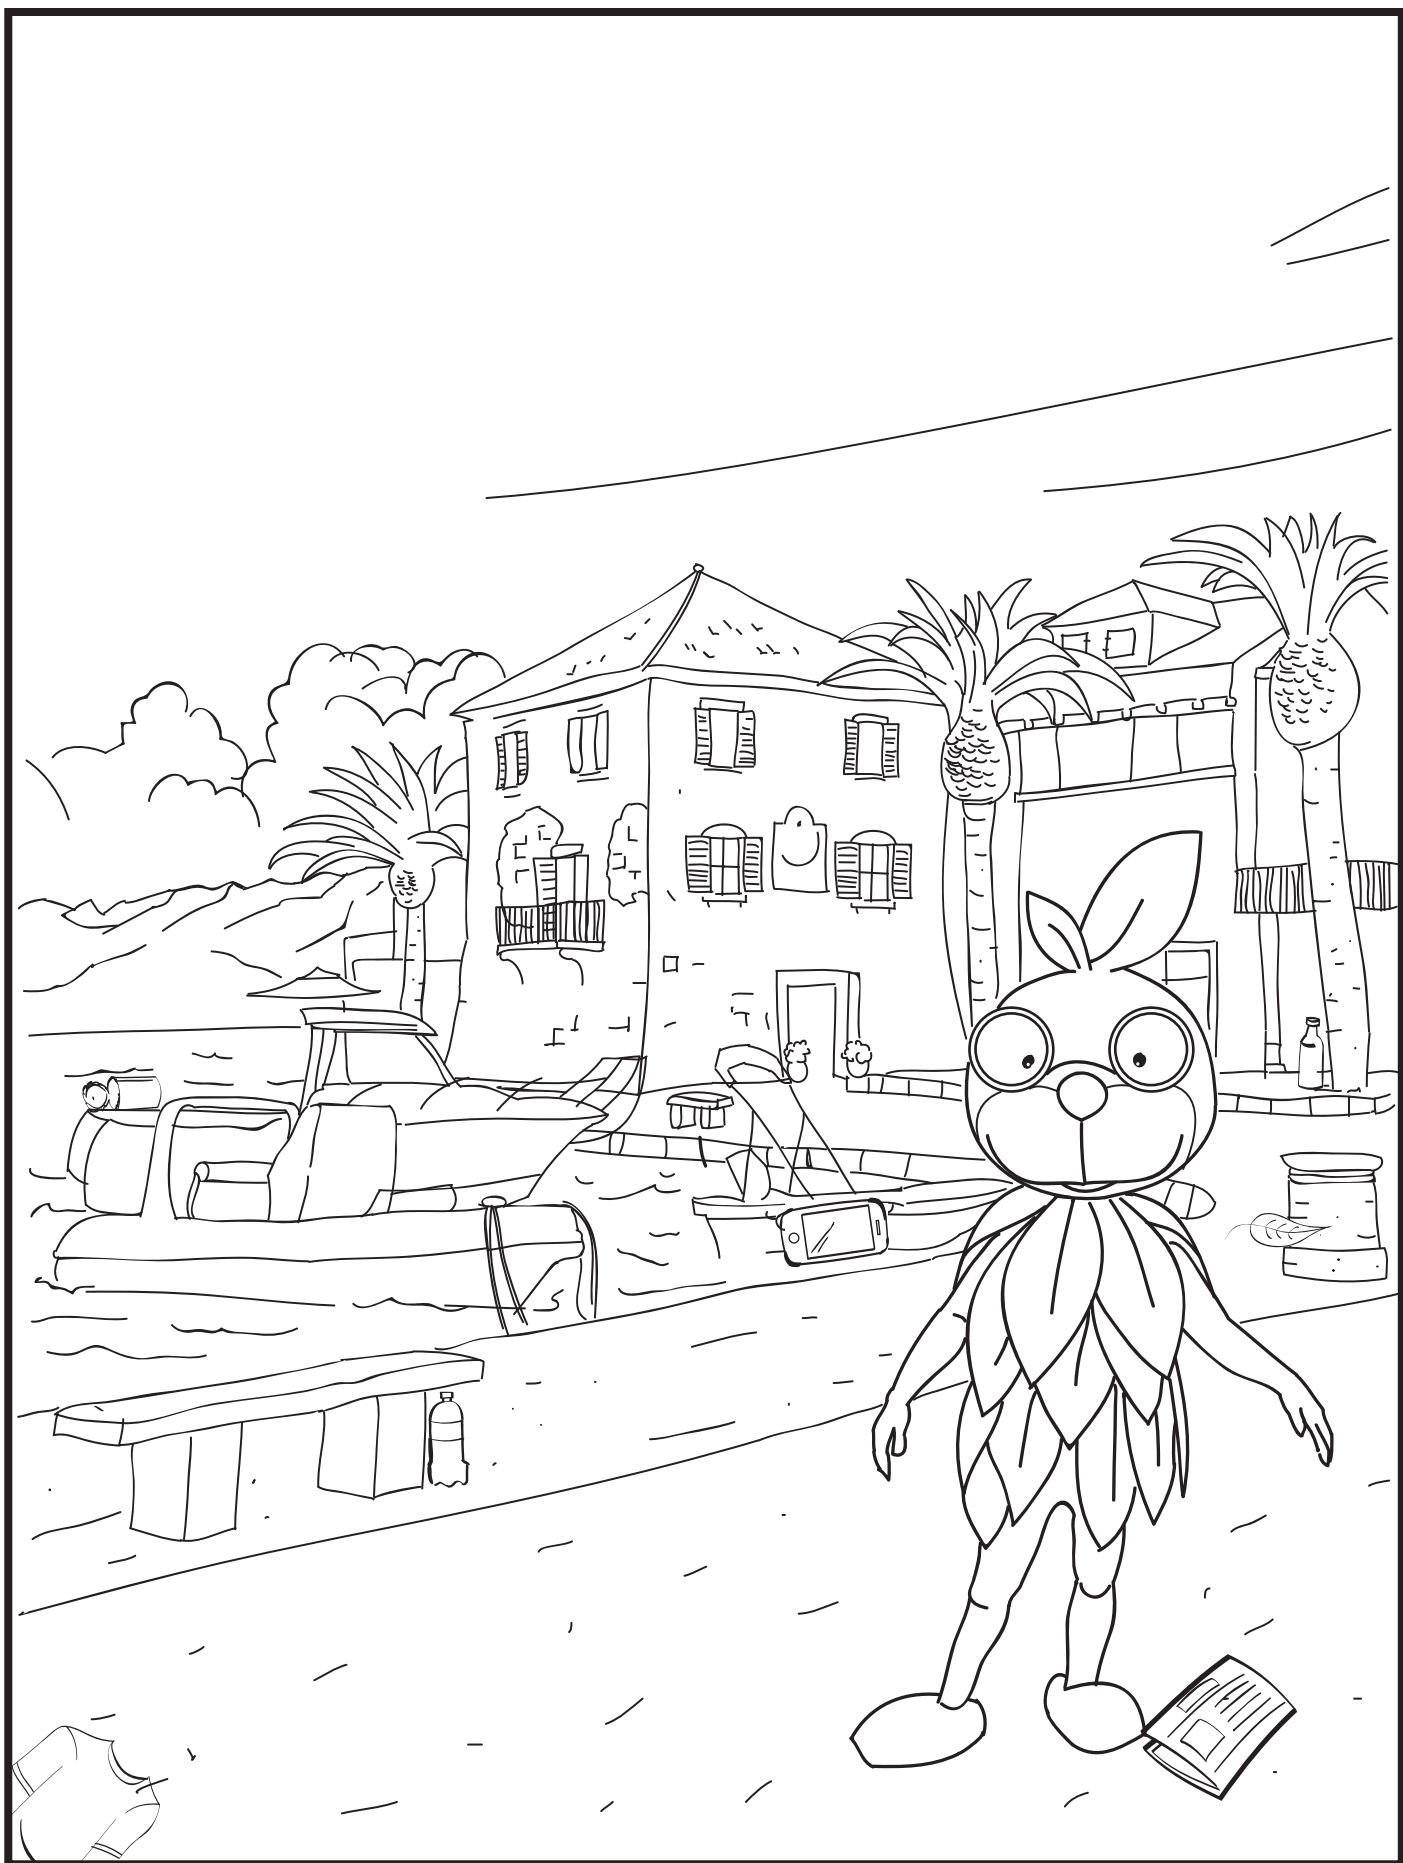

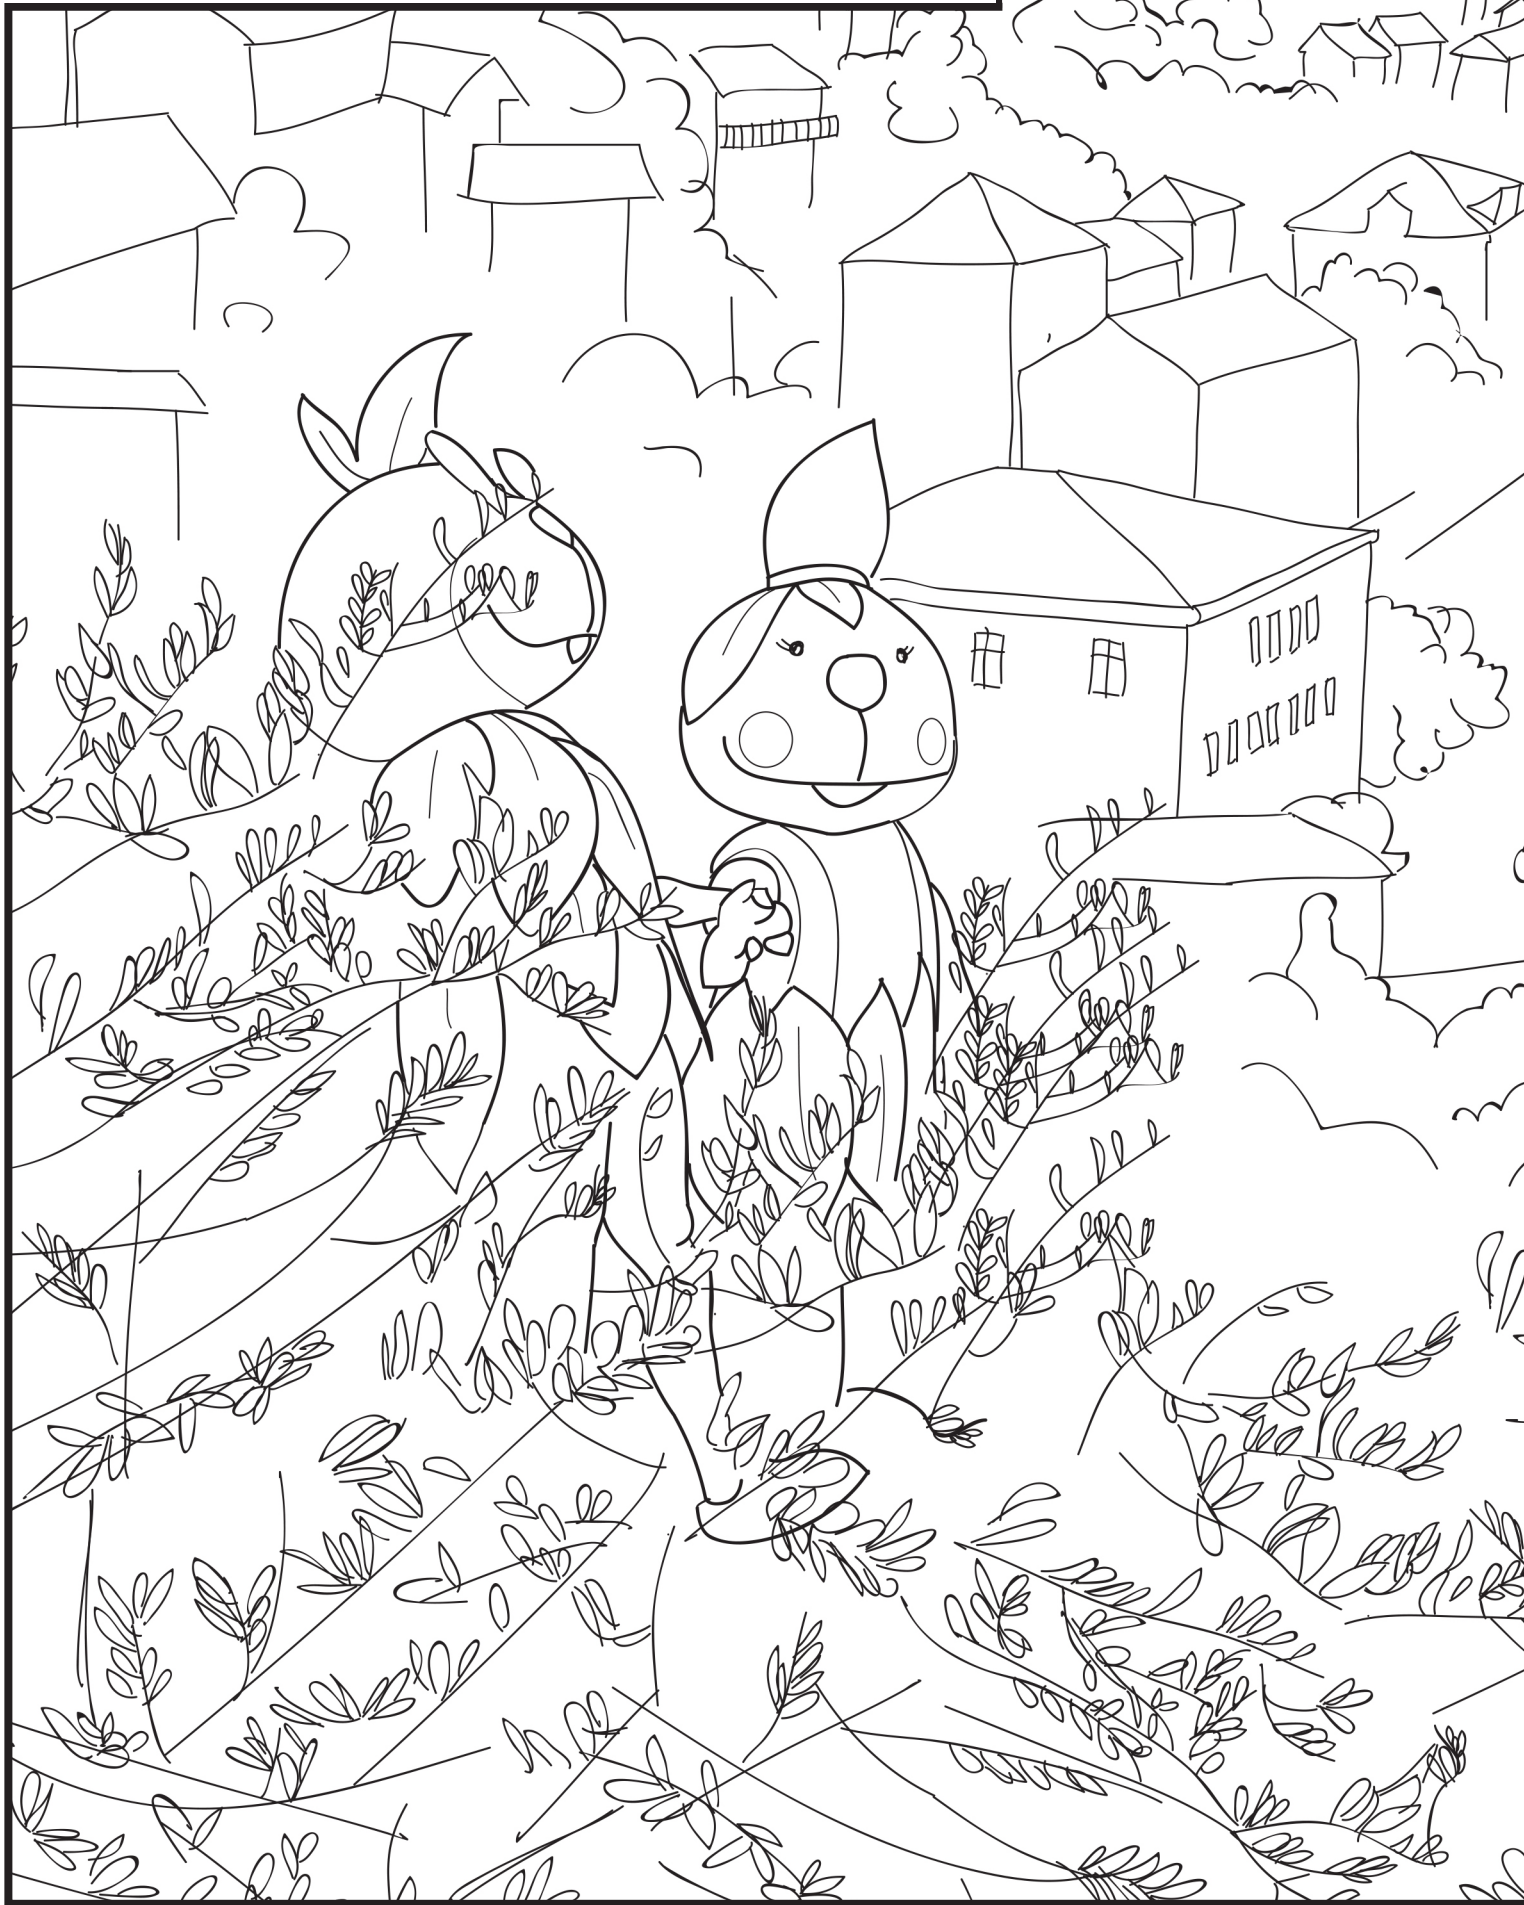

PRONADI RAZLIKE

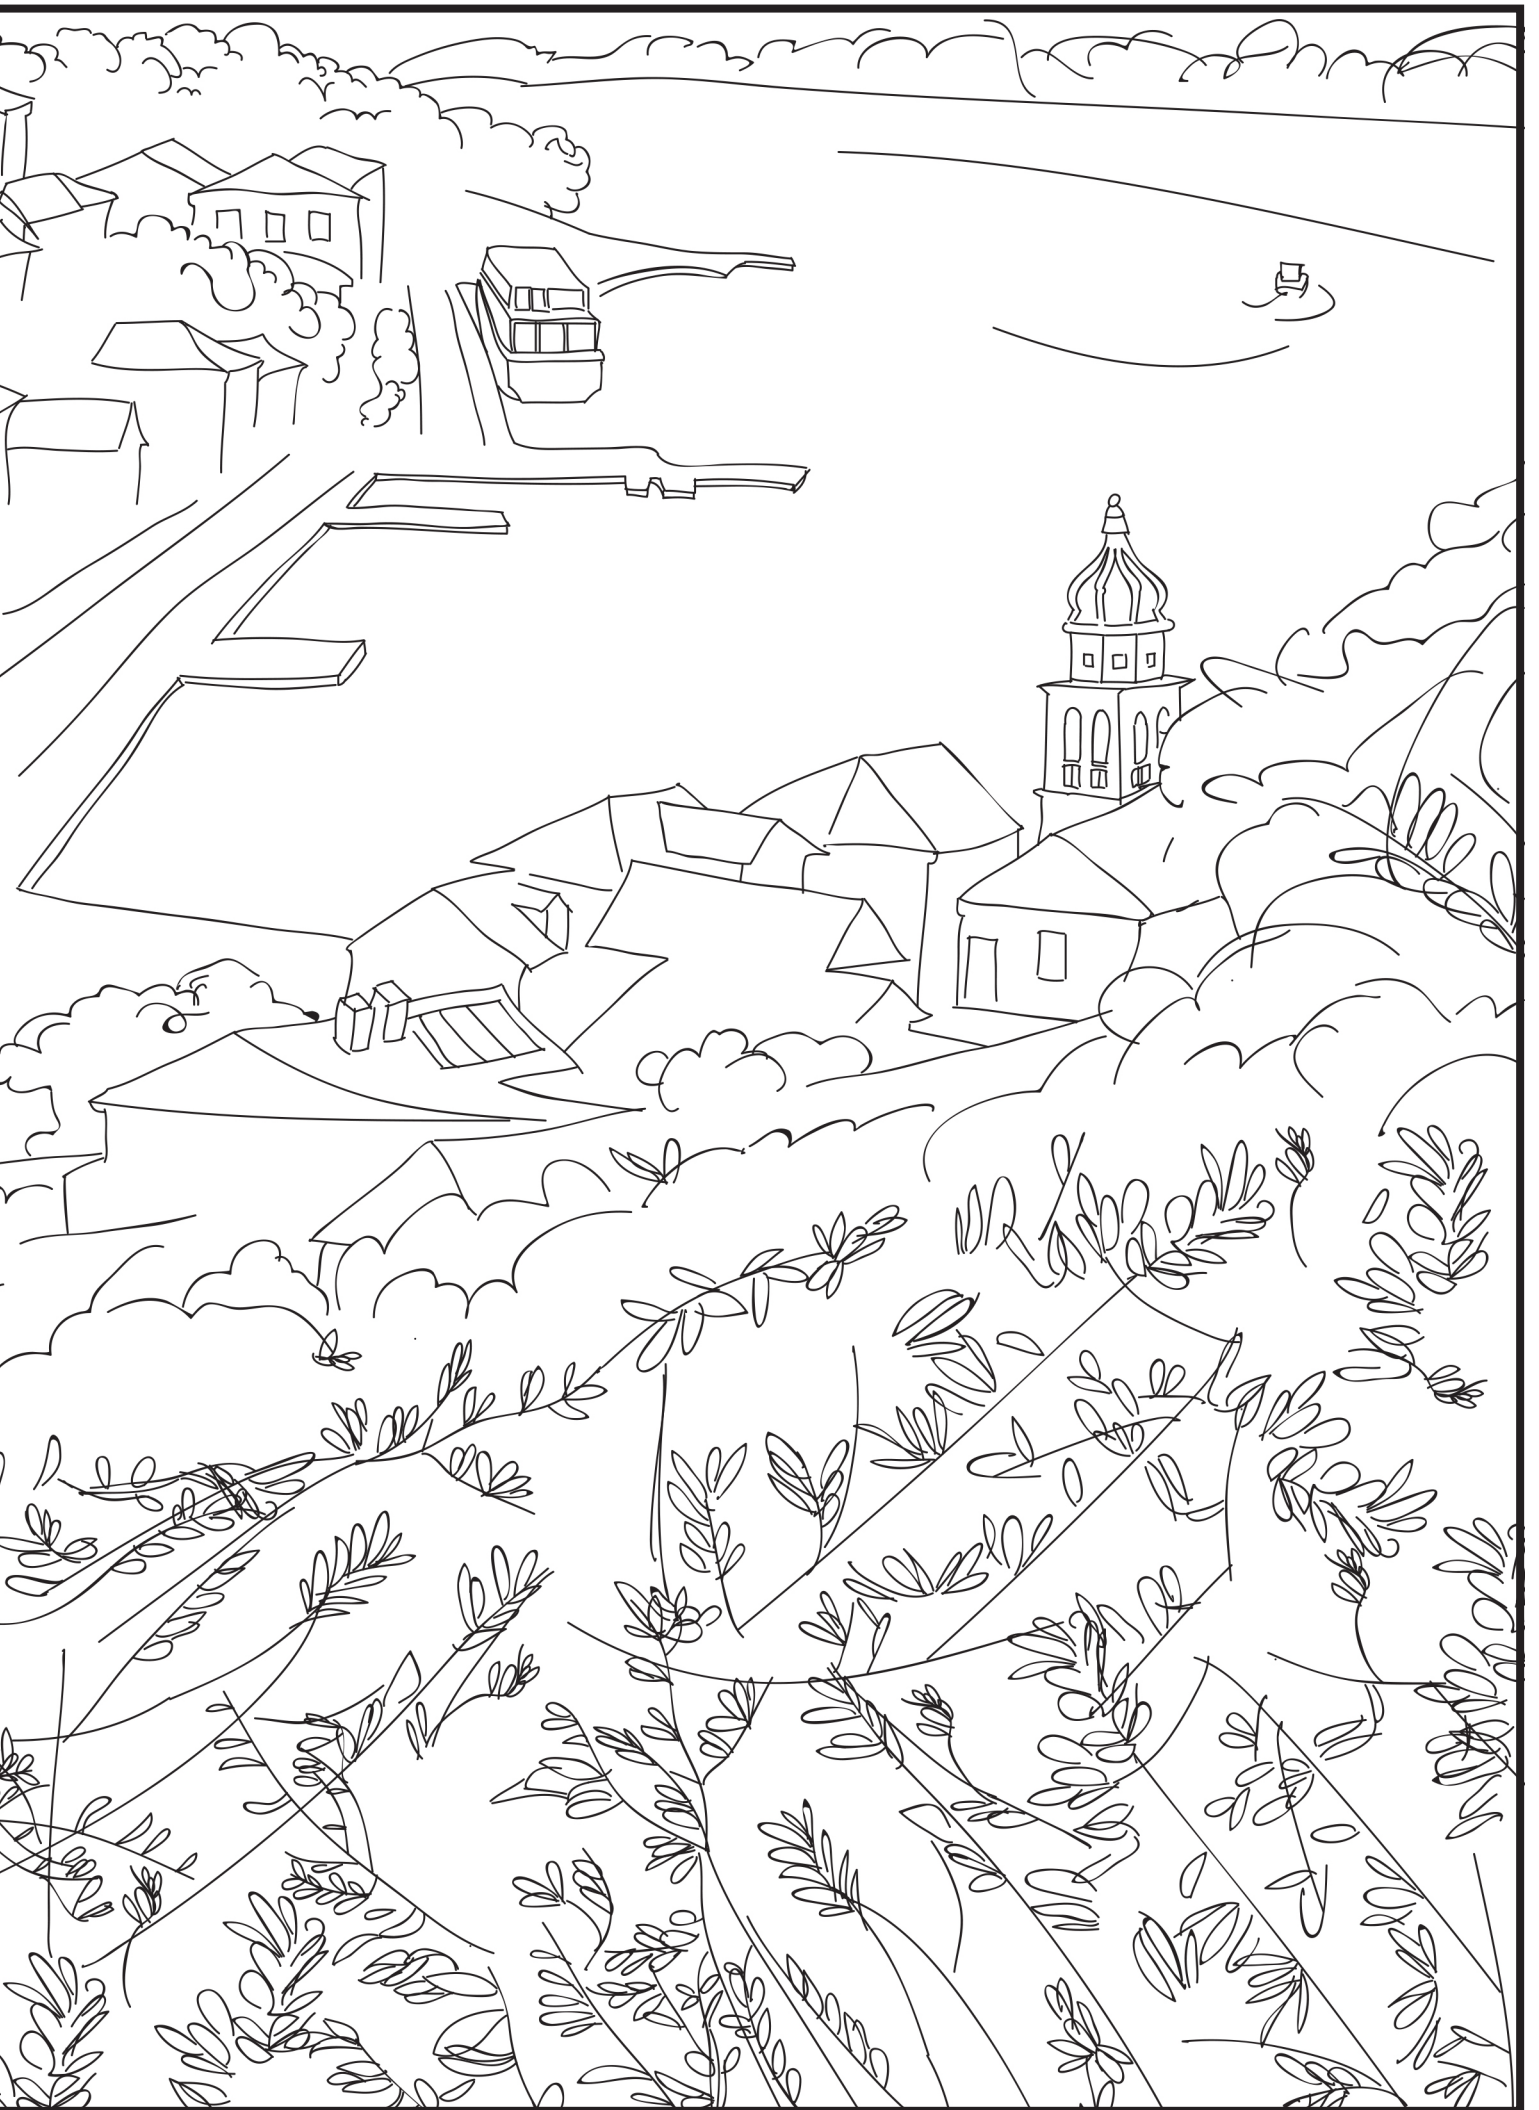

Otok Brač ljepši je bez smeća, a to pokazuju i ove dvije slike. Pronađi na drugoj slici sedam predmeta koji tu ne pripadaju, a koje bi Eko Zelenko trebao baciti u kontejnere za recikliranje!

OBOJI ME

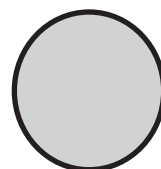

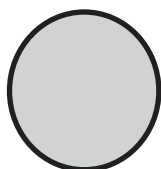

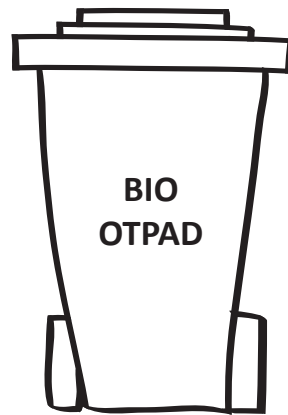

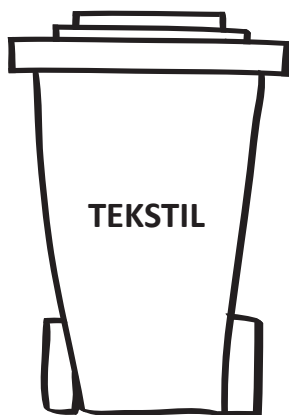

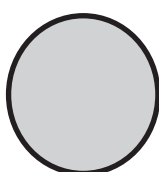

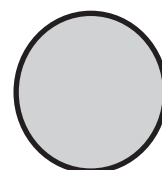

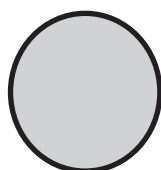

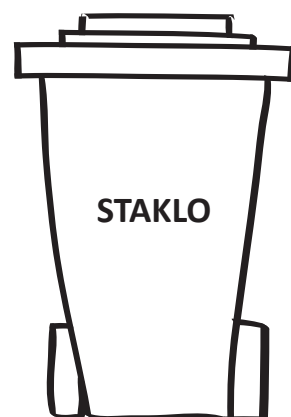

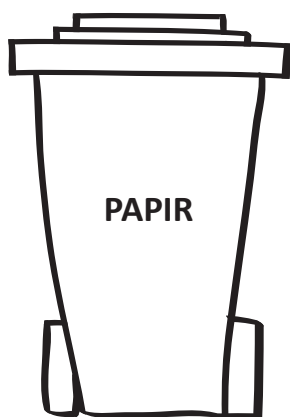

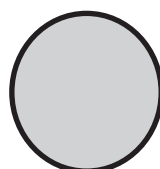

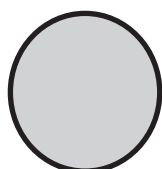

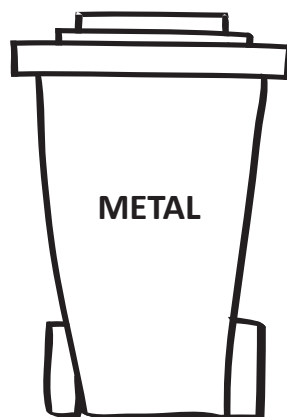

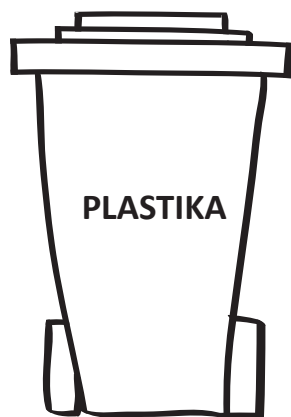

EKO BROJALICA

Skupilo se puno otpada, pomози Eku Zelenku i Zelenčici da izbroje koliko ima koje vrste otpada i upiši broj pored kante u koju ga treba smjestiti!

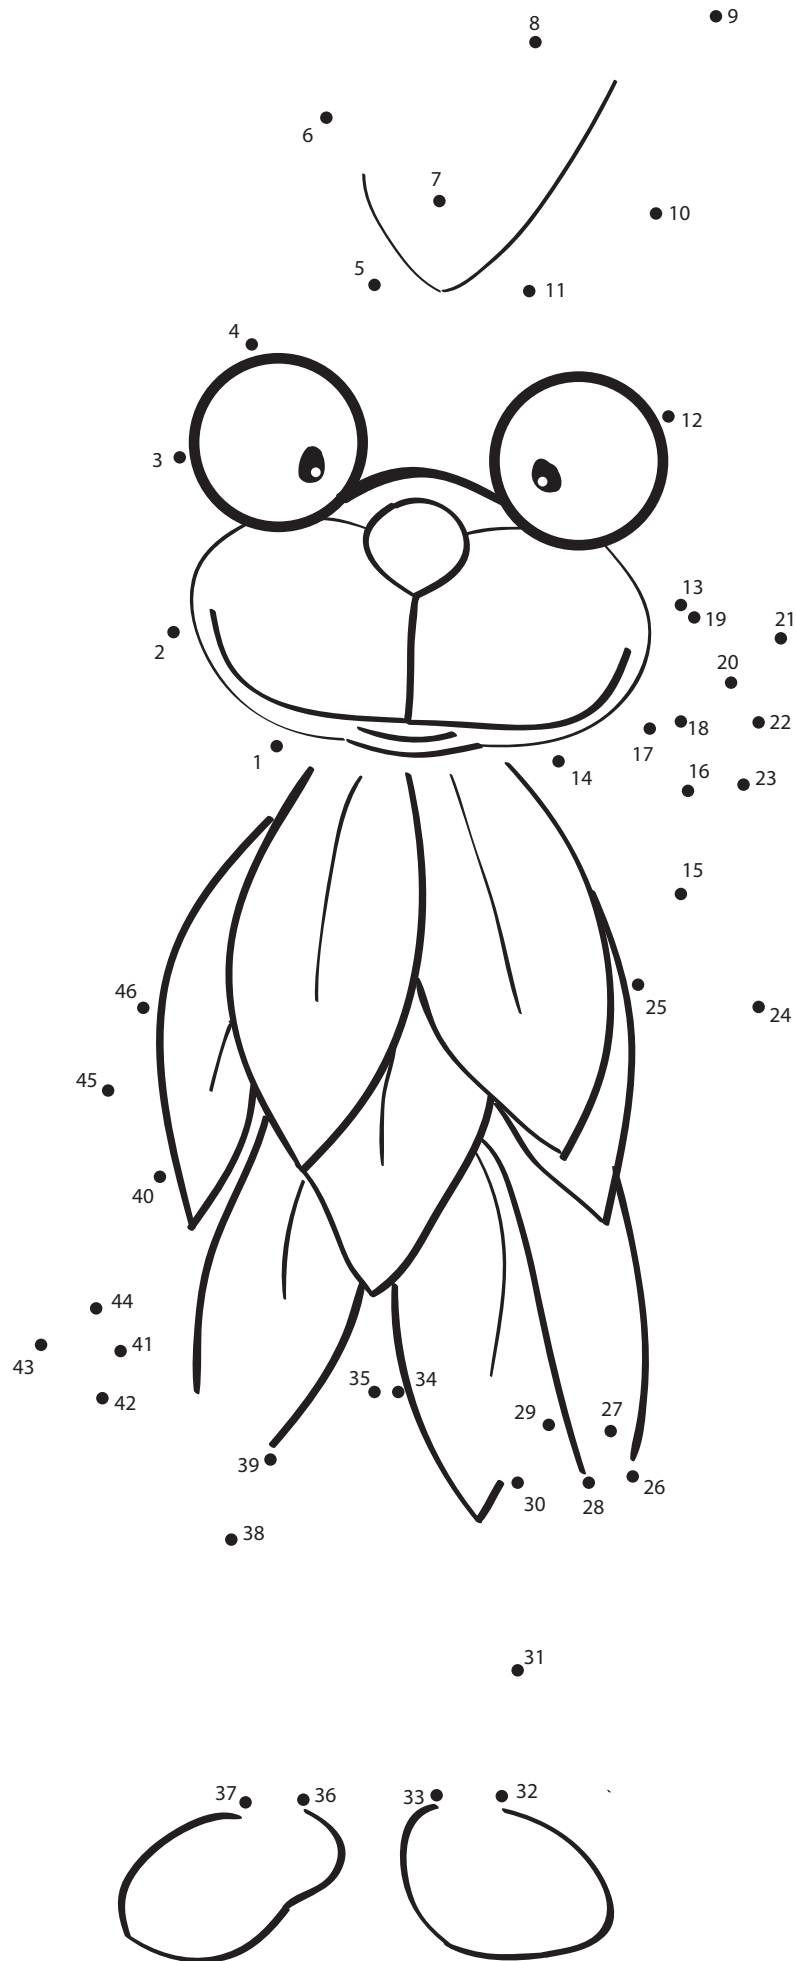

TOČKALICA

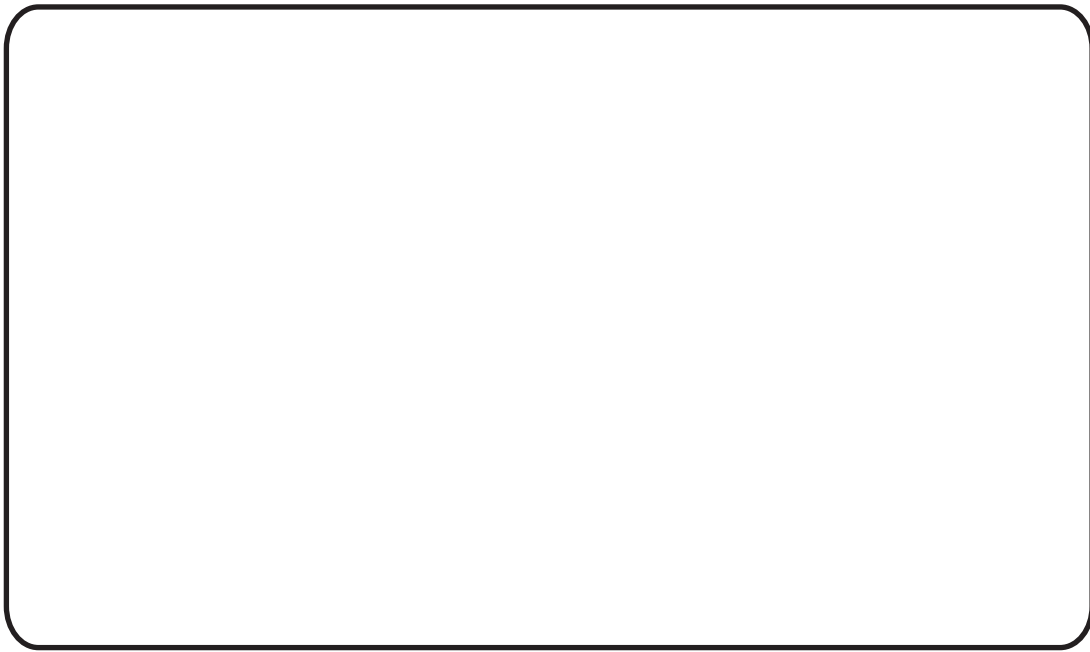

Prati brojeve, poveži točkice
i dovrši likove Eka Zelenka
i njegove Zelenčice!

KAKO JOŠ MOŽEŠ POMOĆI

Došli smo do kraja bojanke i sad nas zanima kako ti, mali Zelenkov pomoćniku, možeš pomoći da Brač zaista bude Zeleni! Na ovoj stranici nacrtaj kako se ti brineš za okoliš!

© PROJEKTU

Cilj projekta jest razviti pozitivne životne navike stanovnika otoka Brača po pitanju zbrinjavanja, ali i proizvodnje otpada, kroz priopćavanje informacija o gospodarenju otpadom na području otoka Brača, podizanje svijesti i razumijevanja (o) važnosti plana upravljanja otpadom u svakoj pojedinoj općini i gradu Supetru te poticanje ekološki odgovornog ponašanja otočana. To će se postići kroz tri koraka –

- (1) izbjegavanjem nastanka otpada,
- (2) vrednovanjem, odnosno recikliranjem,
- (3) zbrinjavanjem otpada na uređena i kontrolirana odlagališta
